EXHAUST

REAL™ World Mufflers.

Fleetguard Mufflers Provide Unmatched Performance and Longer Service Life

Noise attenuation is critical to operator comfort and environmental safety. There is no exhaust product line in the world that compares to Fleetguard mufflers. With more than 50 years' experience in providing original equipment manufacturers with top quality mufflers for heavy-duty and small engine applications, the Fleetguard brand has earned the strongest reputation in the industry for high performance mufflers. Fleetguard offers:

- Over 4,000 muffler designs
- Applications for 5 to 3350 hp

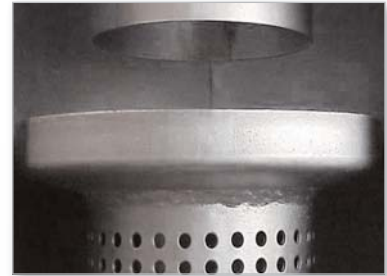

Designed for Performance

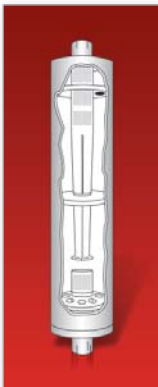

Press Fit Flange offers less welds and reduces rust for longer service life.

Domed End Cap prevents water from pooling on muffler leading to corrosion.

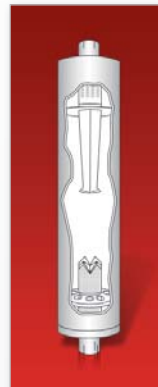

Patented Floating Baffle reduces back pressure and noise for operator comfort.

Premium Design

- Improved noise reduction and proper back pressure
- Longer service life than competitors
- Improved leak-free fit for faster service
- 500,000 mile or four-year warranty

Economy Design

- Heavy 16 gauge end flange stronger than competition for longer life
- Internal support flanges most competitors don't provide
- Free flow design for less back pressure
- One-year warranty

Widest Variety of Mufflers in the Industry

- Absorptive (Packed)
- Aspirating
- Catalytic
- Particulate Trap
- Reactive (Non-packed)
- Spark Arresting
- Water Trap
- Any Combination

REAL™ World Tubing & Accessories.

Beauty Meets Performance in Our Complete Line of Fleetguard Exhaust System Accessories

Tubing

The Fleetguard exhaust product line contains over 100 flex and straight tube part numbers. Precision mandrel bending process minimizes tube deformation and meets OE specifications for accurate fit and replacement.

■ Flex Tubing Options

Flex tubing is available in a variety of options, including galvanized steel and stainless steel in pre-cut lengths (3m). Coils with diameters from 1 1/4 to 6 in (32 to 152mm).

■ Straight Tubing Options

Our straight tubing is constructed of mild steel, aluminium, stainless and aluminized steel and is available in lengths of 3 to 6m and diameters of .63 to 10in (16 to 254mm).

Accessories

To complement our muffler and tubing product line, a complete line of OEM-approved exhaust accessories are also available. All exhaust accessories are specifically designed to integrate into the complete exhaust system and provide maximum performance. Our accessories are available in:

- Top quality aluminized and stainless steel
- High-heat paint, zinc and chrome plating
- Triple-dipped chrome process for extra shine

■ Add-On Packed Silencers

Available from 33 to 152mm inlet diameter.

■ Add-On Spark Arrestors

Available from 1 1/2 to 3 in (38 to 76mm) in diameter. AS1019:2000 and USDA Forest Service approved.

■ Brackets & Hangers

Available from 2 to 12 in (51 to 305mm) in diameter. Styles include universal swivel hangers, mini-swingers, rigid hangers and frame-mount brackets.

■ Clamps

Available in U-bolt, AccuSeal, wide band and V-band clamps plus non-standard sizes and custom-designed clamps with standoffs and integral brackets or shields.

■ Connectors & Adaptors

Standard flared connectors for heavy-duty engines and plus expanders, reducers, threaded adaptors, tilt cab, flex tube and ball-and-socket connectors.

■ Heat Shields & Guards

Available for stacks and mufflers in diameters from 6 to 12 in (152 to 305mm) and with a variety of perforation patterns or custom designs including names and logos.

■ Mounting Flanges

More than 1,000 tooled mounting flanges available.

■ Rain Caps

Available from 1.5 to 8 in (38 to 203mm) in standard, chromed and silent rain caps.

■ Stacks and Tail Pipes

Available from 2 to 6 in (51 to 152mm) in aluminized and chrome finish with I.D. slotted or O.D. ends. Dump Truck Pak, Monster Stacks and custom designs available in diameters from 0.75 to 7 in (19 to 178mm) or double-wall or insulated construction.

“Cummins Filtration is the first organisation in Australia to get Certification for Australian Made Spark Arrestors to comply with the Australian Standard AS1019:2000 in Australia”

REAL™ Protection.

REAL Warranty Coverage that Goes Beyond the Competition

Providing customers the best warranty coverage in the industry is Cummins Filtration's ongoing promise that we want to be your supplier for life. As the only filtration manufacturer with a non-prorated warranty, Cummins Filtration guarantees to always be there after the sale. For detailed information on the **Cummins Filtration Warranty**, refer to the Cummins Filtration warranty brochure and statement, available online at cumminsfiltration.com.
