

TRUFLEX®

Wrapped V-belt

Gates Truflex gives optimum service on fractional power drives including back idler applications. The lower cord positioning improves the performance on light duty belt drives. Truflex is recommended for applications such as powered cultivators, lawn mowers, electrical household appliances and air conditioning equipment.

Identification:

Durable moulded marking indicating type and dimensions.

Construction:

- Thanks to its special thin profile, this belt is recommended for small diameter drives.
- Low cord positioning makes this belt appropriate for back idler applications.
- The Flex Weave® oil and heat resistant cover protects the belt core from the toughest environments.
- The vulcanized "Flex-bonded" tensile cords provide superior resistance to tensile and flexing forces, fatigue and shock loads.
- The belt will not catch fire from heat build-up, even with severe slippage.
- Static conductive ISO 1813 and RMA IP3-3.

Advantages:

- Extremely flexible.
- Smooth, quiet operation.
- Economical drives.
- Superior length stability.
